Profile Summary

Security Engineer & Full-Stack Developer with expertise in **ethical hacking, security automation, and system design**. Experienced in **pentesting, patch development, and product security** with additional skills in **team management, startup building, and innovation projects**. Proven ability to bridge **technical execution and strategic leadership**.

Target Roles

- **Junior:** Product Associate (AI/Security Products), Technical Consultant / Pre-Sales Engineer, Innovation Analyst / R&D Associate
 - **Senior:** AI Security Product Manager, Director of AI Strategy / Security Strategy, Venture Architect / Startup Consultant, Chief Technology Officer (CTO – Startup Scale), Chief Information Security Officer (CISO – Later Stage), Co-Founder / Entrepreneur in Residence (EIR)
-

Professional Experience

Hubstream India Pvt Ltd – Software Engineer

 Jul 2023 – Present

Key Responsibilities

- Conducted **penetration testing** and resolved vulnerabilities in production systems.
- Planned and developed an **installer application** to streamline deployments.
- Designed and integrated **security automation** into DevOps pipelines.

Key Achievements

- Patched **critical vulnerabilities**, improving product resilience and compliance.
- Introduced **Snyk & SonarQube**, enhancing code quality and reducing risks.
- Built **AI-driven automation tools**, reducing manual engineering overhead.
- Conducted **security awareness training** on phishing, social engineering, and best practices.

- **Managed security projects** and coordinated between engineering and security teams.
-

Leadership & Startup Experience

Founder – Digital Forensics & AI Startup (Weekend Project)

2025 – Present

- Developed a prototype for **AI-driven digital forensics solutions**.
- Designed MVP, business model, and roadmap for scaling.
- Managing team of 3 founders.
- Has many connections and good at networking

Founder & Lead – Trust Null Security Team

2023 – Present

- Built a team focused on **cybersecurity research and automation**.
 - Directed R&D initiatives around **security automation & AI integration**.
 - Mentored peers in ethical hacking, secure coding, and defense strategies.
-

Education

B.Tech – Information Technology (CGPA 8.75)

BS Abdur Rahman Crescent Institute of Science & Technology

Projects & Portfolio

- **Are You Root?** – YouTube series + AI-powered pentesting tool exploring hacking & automation.
 - **Thailus (Under Development)** – Security automation platform integrating **red-team & blue-team operations**.
 - **GitHub Projects** – Full-stack, security, and automation projects.
-

Core Skills

- **Leadership & Strategy: Team Management, Product Strategy, R&D, Startup Growth, System Design, Business Development**

- **Cybersecurity:** Ethical Hacking, Pentesting, Vulnerability Assessment, Digital Forensics
- **Engineering & Systems:** Full-Stack (C#, Angular, MSSQL), Python, Linux (Arch/Kali), Docker, Hyper-V, Web3, IPFS
- **DevSecOps & Automation:** Secure SDLC, Snyk, SonarQube, CI/CD, Security Automation
